PROFILE

A self-taught software engineer with a passion for innovation, I specialize in full-stack development, with particular expertise in responsive design and code optimization. Currently, I contribute to the development of scalable interfaces and the improvement of user experience through integrated front-end and back-end solutions. I thrive in dynamic environments and am actively seeking opportunities to hone my skills with emerging technologies.

PROFESSIONAL EXPERIENCE

► FULL STACK WEB DEVELOPER | (SELF-EMPLOYED - FREELANCE) / Jan 2025

[Digital Media Africa](#) , MARRAKESH

I participated in the development of responsive websites using HTML, CSS, and JavaScript, ensuring code quality and performance through LESS integration and bug fixes. I contributed to the design of modern user interfaces and collaborated with senior developers on testing and continuous feature improvement.

► FULL STACK WEB DEVELOPER INTERN / Nov 2024 – Jan 2025

[Digital Media Africa](#) , MARRAKESH

Contributed to building responsive websites using HTML, CSS, JavaScript, and TypeScript, with a strong focus on performance, reliability, and code quality. Integrated and managed REST APIs with Laravel, while actively fixing bugs and improving application performance. Also collaborated on user interface design and worked closely with the technical team to develop and enhance features.

CERTIFICATIONS / PROJECTS

► Microsoft Developer Career Preparation Certificate / May 2024

ID : 29d51bd398a359a2ed1fe27efd2d3b0a8ba280b7d075cdc98550fb8deef279b

► CivicLensAI | March 2026 – June 2026 | [GitHub](#)

CivicLens AI is a platform that allows citizens to report urban problems via photo, voice, or text. The AI then analyzes the reports by understanding, categorizing, locating, and assessing their urgency, in order to generate reports for municipalities.
