CERTIFICATIONS

Certificate_Preparing for a career as a developer by Microsoft

Microsoft

May 2024

Credential ID: 29d51bd398a359a2ed1fe27efd2d3b0a8ba280b7d075cdc98550fb8deeeef279b

PROJECTS

MindTrack AI | TypeScript, Laravel, TailwindCss, HugginFace AI Models, MySQL

Sep 2025 — Dec 2025

- MindTrack AI is a personal emotional companion that analyzes text and voice understand a user's mood and mental state over time.
- Real-World Problem It Solves Mental health tracking apps today rely mostly on manual input or basic questionnaires.
- MindTrack AI goes further by analyzing real multimodal signals (text, audio tone, facial expression) to deliver more objective and adaptive well-being insights.

MediLensAI | Laravel, PHP, Blade, Huggingface Api Models, Tailwindcss

Jun 2025 — Apr 2025

- Healthcare professionals and patients often deal with unstructured multimodal medical data (lab reports, X-rays, CT scans, prescriptions, voice notes, etc.). MediLens AI turns these into actionable insights and summaries.
- This project addresses the fragmentation of medical data problem, by using multimodal AI to make healthcare information accessible and actionable.
